MEPUBLICAN NOMINATIONS. FOR PHENIDENTIAL RECTORS.

For Electors at Large THOMAS W. MYDE, of Bath.
WILLIAM M. NASH, of Cherryfield,
First District—
Second District—SIDNEY PERSHAM.
Taird District—A, W. WILDES,
Pourth District—RODNEY C. PENNEY.

FOR CONGRESSMEN: First District—Second District—NELSON DINGLEY, Jr. Third District—Pourth District—CHARLES A. BOUTELLE.

By permission of the editor of the North American Review we publish on another page this morning the article contributed by Mr. Boutelle to the sym- ly posium of views in the May number on the "Man or the Platform."

New Jersey will be good fighting ground for the Republicans this fail. The people have followed the overturn in Jersey City w tha Republican victory in Morristown where the entire Republican elty ticket was elected Monday for the first time since 1882.

The Cleveland Tin Plate Company, of Cleveland, Oh o, recently secured an order for 300 boxes of tiu plate from an Eastern firm. This is the fifth large order received from the same firm since last January. And the tin plate liar still claims that we are not making tin plate!

The anti-Hil. Democrats in New York, who will hold their State convention this month, declare that they will send a contesting delegation to Chicago in spite of all reports to the contrary. From present indications it is impossible to see how the two factions can avoid a very lively row in the National convention.

The snap census in New York has had to be doctored again to suit Tammany. It reported 377,"55 aliens in New York Money to Loan city. When Tammany discovered that allens could not vote, the Tammany Secretary of State simply scratched out the "alieu" after 250,000 of these names to EASTERN TRUST AND BANKING COMPANY, make them voters. Tammany is great as a vote maker.

The New York World celebrates its ninth applyers try under the present management with a review of the arhievements it has accomplished. We do not find included in the list the abandonment of the mid-winter convention, a Demoeratic victory in Rhode Island, or a "halt" in the Democratic extravagance in the House. This anniversary comes at an inopportune lime.

Between the years 1880 and 1890 the number of people employed in the woolen industry in Rhode Island increased from 12,164 to 19,325, and the total amount paid in wages from \$3,711,657 to \$7,049,109. At the last election in Rhode Island the candidates of the free trade party were overwhelmingly defeated. The people over there don't fancy free trade quite

A reporter of the New York World . called at the office of ex-President Cleveland to ahtain bis views on "the extravagaut River and Harbor bill," but was not even admitted to the presence of the "logical candidate." When Informed of the he object of the reporter the ex-President sent out word by the office boy that he was very busy and could not see him. Now that he is making an active canvass for the nomination Mr. Cleveland does not latend to say anything that is likely to cost him any votes in the convention.

that, for the first time in our history, we are exporting more iron and steel factures, exclusive of iron ore, than we The figures are as follows: Value of imports. Value of exports. \$16,329,207 820,463,764 29,820,502 26,966,085 27,482,620 18,825,384 16,735,594 13.840,732 27,850,422 10,713,182

The Iron Age calls attention to the fact

Will this McKluley law never cease reits already unnumbered trlumphs?

The beneficial results of the McKiulev tariff are daily coming to light. The treasarer of one of the leading furniture manufacturing companies in Indianapolis says his company is now buying a plush at Li _i J 821; cents that was formerly imported at a cost of \$1.10 per yard. A contract was recently made for 4,000 yards of silk plush at prices from 75 to 90 cents, American goods. Five years ago the company used ferman goods that cost \$1 to \$1.50, and were not as satisfactory material. Four new mills, started within the past year, have brought the price down to The Parable of Two Wives. cents lower than ever before known in any country. This is the testimony of a practical man who knows what he is talking about. No better vindication of the protective principle could be asked for. Give native industry a chance and the country at large becomes a gainer.

The Boston Herald is at last constrained to admit that we can make tin plate in this country, but says it is very foolish to for us cheaper than we can manufacture very doubtful economy, but is not true. pr trol of our market and it will fix the pree to suit itself. The tin plate schedule of the McKinley ta iff has been in operation less than a year, but in that short time can soon supply the greater part if no: the entire home demand, thus establishing an industry that will give employment to a large number of workmen. It is not many years since the same free trade The Connecticut Mutual Life Ins. Co. organs declared that we could not manufacture steel rails or plate plass to an advantage, but they dislike to be reminded it matter now in view of the facthat they have proved false prophets.

Mr. James A. Wright of the Inman Line in speaking of the passage by the Senate of the bill allowing the City of New York and the City of Paris to fly the American "We believe that we can build good ships in this country, as cheap y as we can in England. Labor is higher over here, but they co better work. In the building of cheap and loosely put-together tramps, we, or course, cann That class of vessels can be built cheaper on the other sice. We believe that we can afford to build our ships here and are willing to try the experiment. The great success of American shipyards in build the vessels of the new Navy, makes us be-lieve that count lieve that equal success will follow the building of large merchant vessels. Of course they will not like it on the other aide, but we believe that the best interest of the line will be served by building ou ships here. The City of New York and the City of Paris were built, under the supervision of the Zaglish Admirality, with a view to their being taken for any or war remain in case of mind. The change of an family in these shape will a course any stem out of the Reiths which are

Col. Watterson, who is now in New York, says that it "would be an act of stupid folly for the Democratic party to ominate either Cleveland,or Hill, I don't beliéve that we could electieither. Neither of them could, in my judgment, carry this State. I have never regarded Mr. Hill as a possibility." In the opinion of Col. Watterson New York is absolutely necessary to Democratic success and it would suicidal" for the party to take either of the men named. The Commercial was a good deal elated the other day when the Kentuckian declared his opposition to Cleveland, but now that he includes Hill in his list of impossible candidates, we doubt if his latest interview Inda much favor in the eyes of our contemporary.

Editorially the Boston Post remarks that the Republicans are disappointed because the Democratic cancuses passed off in "such good shape!" In its news col-vmns, however, we find the proceedings reported as follows:

Things at this time began to take on a erious aspect and word was despatched or an extra detail of police. Excited men shook their fists threaten-Makes ly at Mr. Wells.
Finally a police sergeant got on to a table and warned the crowd that order must be preserved or he would clear the

"Why don't you clear out that crowd behind the rail" shouted Montengue. "Those people are not Democrats, they are veneered and varnished Republicans." Evidently nothing short of murder would conflict with the Post's idea of Democratic harmony.

The came the Contest over the determinant country, during gate from Cumberland country, during from Cumberland country, during from Cumberland country.

It was referred to the Finance Committee.

At request of Mr. Frye the bill exempting American coastwise vessels piloted by their licensed masters, or by United States pilot, from the obligation to pay State pilots for services not rendered, was the fixed of the punishment of violations of the treaty rights of allens.

The Secand proceeded to the Finance Committee.

At request of Mr. Frye the bill exempting defeated Colby this afternoon by a score of eighteen to six. It rained throughout the game. Hits, Colby 2; Baites 10. Errora, Colby 14; Baites 6.

State pilots from the obligation to pay State pilots for services not rendered, was the fixen up and made "unfinished business"—Caking precedence of the bill to provide for the punishment of violations of the treaty rights of allens.

The Secand proceeded to executive business. where both candidates, E. C. Sweet and it is C. Gordon, both of Portland, were introduced and both expressed themselves in favor of Cleveland. The ballot resulted its fir F. C. Sweet and 112 for Dr. S. C. Gordon. George B. Emery, of Gorham, was chosen alternate from Cumberland county.

The resolutions appointed by the committee affirm the general principles of the season adjourned at 4.50.

party and endorse Cleveland for Presi-Mr. Sayers, of Texas, presented the Mr. Saytrs, of Texas, presented the conference report on the urgent deficiency appropriation bill. He explained that the bill as agreed to appropriated about \$250-000 more than it carried when it passed the House. The conference report was agreed to.

Mr. Beltzhoover, of Pensylvania, demanded the thouse. The caught from the engine. Loss \$3,000, unusuared.

ARCHNAN'S CARE

ARCHNAN

1 His AGO, Ill., May 11. The board of review of the National Trotting Association rendered several decisions at the ineed og to-day. In the case of the horse thereon, which was ruled off in the tamous race with the stallion Melson, the matter was turned over to the president, covernor Bulkeley, of Connecticut, and pending his decision the driver was temporarily reinstated. The check for \$5.000 which one of the parties is alleged to have secured from a pool seller just before the race caused all the trouble. Mr. Beltzhover refused to withdraw and Mr. Watson gave notice that hereafter the alliance members would object to all riquiests for unanimous consent and he emphasized this notice by objecting to Mr. Holman's request that a cuit of the committee be dispensed with.

The House then went into Committee of the Whole on the sundry civil appropriation bill.

no one destring to continue the general debate the bill was read by paragraphs

with the committee of the control of Boston, Mass., May 11. STOCK

The Lone Star Cotton Picker A SAFE INVESTMENT.

It is seldom that opportunities are offered for lavestments that are certain to pay very large dividends without danger of loss. But such opportunities occur, as in the case of The Lone Star Custon Picking Company. Here every fart can be known—the number of bales of cotton produced, the cost of picking by hand per bale, and the total cost. These facts can be learned in an hour by any intelligent person who will take the trouble to examine the statistics, easily accessible and recognized as authority by the entire commercial world. It is just as easy to learn that the Lone Star Cotton Picker has been performing this labor for two years past at a saw ng of fully 80 per cent. over hand work, and that if machines enough to pick the entire crop could be furnished, the saving would exceed \$80,000,000 annually. To build these machines money is needed, and stock is offered for sale to raise it. You can arrange to share in this enormous saving by purchasing a single share of the Lone Nor offered for sale to raise it. You can arrange to share in this enormous saving by purchasing a single share of the Lone Burchasing a single share of the Lone Burchasing a single ses than one hundred doltars, running fifty days and picking two bales per day, will save the panter using it more than \$1000 each senson. An equitable division of this is anticipated. The paralue of the shares is ten dollars. The purchaser of ten shares will thus furnish the means to build one machine, which should earn the company about \$500.00 machines to harvest the puscut crop, and the tatto of increase each year is large, and will be larger as machine is for gathering are supplied. The figures are startling and the shaements facts. The person who investigates will be convinced that such an opportunity for a safe investment seldom probably myer has occurred in the history of the

Single shares will be sold or blocks of co. The machines is shown and its ions explained at 31 Milk Street, all are invited, whether investors

RESERVE.

ATTHE SEWING SOCIETY.

In several of the churches in this city there are flourishing societies that reset weekly, to make clothes for the poor of the church or missions. This noble work is one that is little known, yet it accomexplishes a vast amount of good, and too much praise rampot be given to those who devote an afternoon of each week to this purpose. In another sense, these societies are a benefit to the members, for the

weekly meetings give an opportunity to discuss church work, current topics, and other matters of special interest. In one corner of the church pariors, the ther afternoon, half a dozen ladies busily sewing, when one of them said:
"Did you notice how miserable lifts.
Johnson looked last Sunday?"

busily sewing, when one of them said.

"Did you notice how miserable lars.
Johnson looked last Sunday?"

"Yee, she is evidently wearing herself out," replied one. I gave her some advice yeaterday that I hope she will take. You know how near I came to being slock ast spring. It was dyspepsia and spring weather combined that alled me.

"Why, I felt completely dragged out all the while." I didn't have any appetite, couldn't sleep well at night, had chart-ited all the while."

"Did your head ache?" asked an interested listener.

"Fit to split. And my back pained me, too. That was because my system was out of order. I tried sensa and pills, but didn't get any better."

"What advice did you give Mrs. Johnson? Tell us, for I believe half of the women, and men, too, are troubled as you were, especially in the spring."

"Mrs. Johnson and I compared symptoms, and they were nearly the saine I told her that my husband brought home a bottle of medicine one night that he had seen advertised, and said he was going to use it, and I had better. I laughed at him, but finally tried it to please him. It did us both so much good that we used four bottles. After asking I tabout a week, ask left better than I had for year.

"It was Paine's celery compound that I used, and allough it is advertised in he papers, I always speak a good word for it, us I know it lou't at all like the ordinary sursaparilla or bitters. It is said to be a physician's prescription, and it certair ty did me more good than the average prescription."

That meeting was of the greatest value to several of the members, for they profit—

CASTORIA

and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhees and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria. Castoria, "Castoria is an excellent medicine for chil-ren." Mothers have repeatedly told me of its good effect upon their children."
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

"Castoria is the best remedy for civil iren of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castéria in-Our physicians in the children's depart-"Our physicians in the children's depart-ment have spoken highly of their experi-ence in their ouzside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yes we are free to confess that the merits of Castoria has won us to look with favor upon it."
